

Fields of Dreams

1. With pick and shovel on you go
To carry on that work so slow
Fill the barrow with another load
Just another step on Calum's road

Chorus

You've built the road to your fields of dreams
Let the world know just what it means
To stand against bureaucracy
And leave a lasting legacy

2. Take each day yard by yard
Breaking through the ground so hard
Through all the weathers wind and hail
You'd be working without fail

Chorus

3. Breaking rock with brawn and strength
Building walls with guile and sense
To bring about that vision clear
A Highland culture you hold so dear

Chorus

4. To see the children out at play
The schools they open for another day
To see the men at work in fields
Tilling the soil for crops tae yield

Repeat first verse and chorus
